

## Transport and handling systems

TOP-WERK offers a large individual program of devices for transportation, buffer and storage, i.e. finger cars, elevators/lowerator, transport systems, automatic spacer input devices, cubers and pallet buffers.

## Milling machines for manhole bases

## Pipe making machines

## Plants for infrastructure products

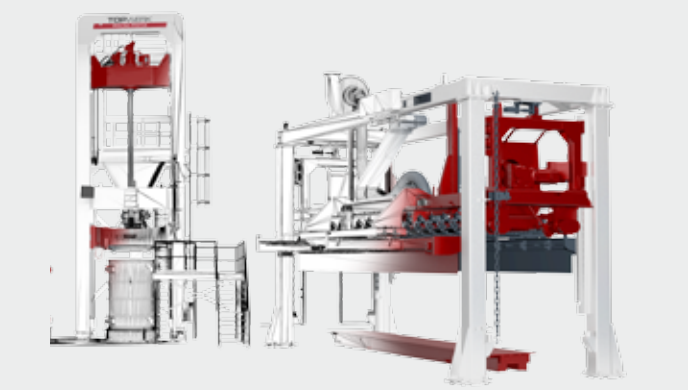

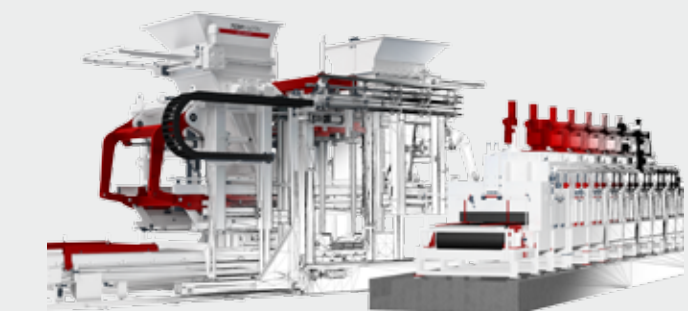

## AAC plants and systems

The TOP-WERK AAC plants offer a high degree of flexible design, tailored to the specific requirements in terms of capacity and product range. The systems are based on know-how and experience in both tilt-cake and flat-cake production systems, hereby combining the advantages of the two systems.

# TOPWERK GROUP

-  HESS GROUP
-  SR SCHINDLER
-  HESS AAC SYSTEMS
-  PRINZING PFEIFFER

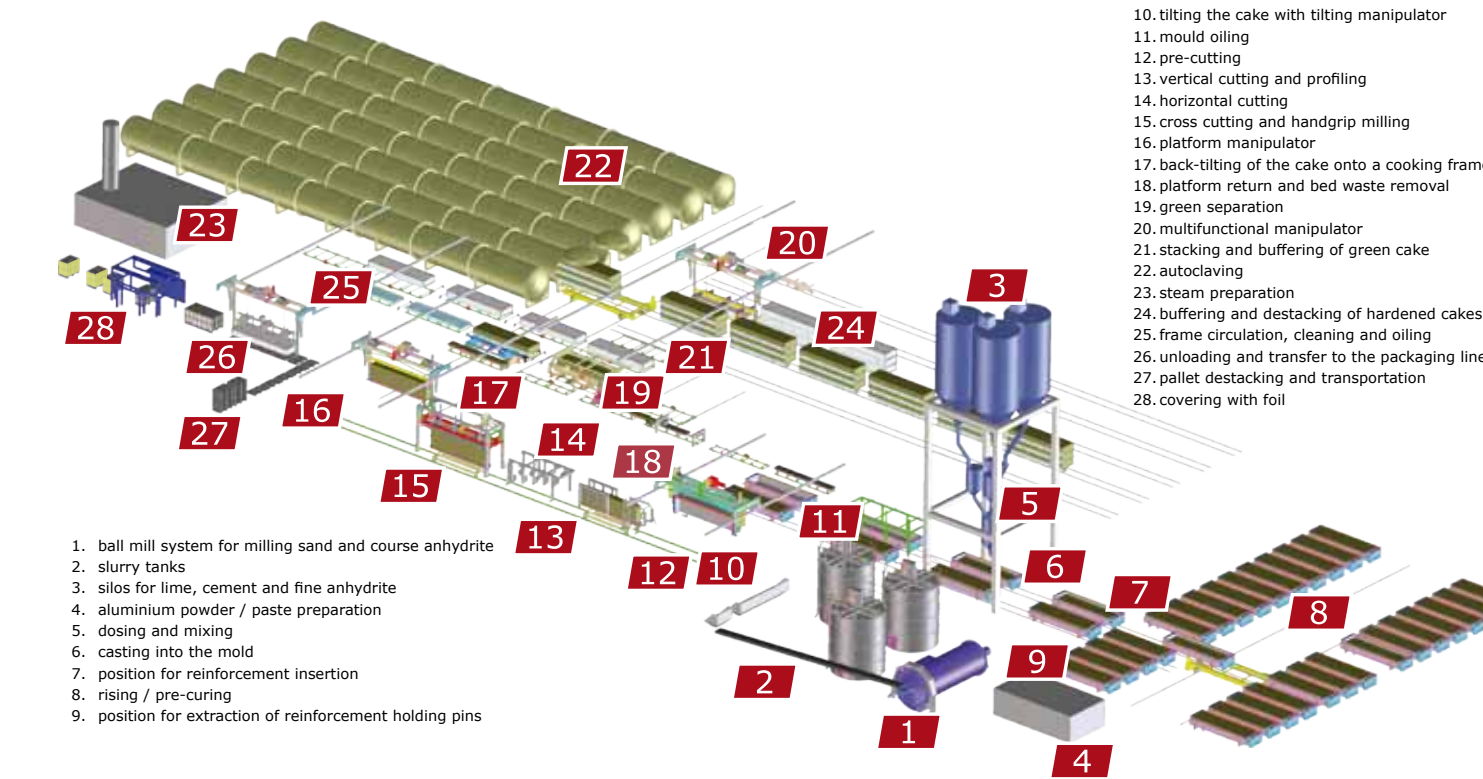

The PRIMUSS features a high degree of automation, allowing the number of operating staff required for the production of manhole bases with varying channels to be greatly reduced. The monolithic PRIMUSS produced manhole base fulfils the high demand regarding dimensional accuracy, function and long life service.

TOPWERK offers effective and flexible plants for large-diameter pipes. Each machine is customizable and features easy handling, steadiness and easy maintenance. Products can be chosen to the greatest possible extent to fulfill the individual and changing demands of contemporary markets.

## Concrete products

**Machines and Equipment for the Building Material Industry**

## Concrete block making machines

Our concrete block machines are high capacity single-layer board machines for automated stationary manufacturing of concrete products. Through an optimal integration of the latest concepts in electrical and hydraulic functions, superior results in the production of concrete shapes are achievable.

## Concrete mixing systems

- high-speed rotating
- eccentric mixing tools
- planetary-type rotary motion
- high intensity of the mixing process
- top-quality results and high efficiency

## Value adding lines

Value adding possibilities:

- Bushhammering
- Curling
- Splitting
- Shot-Blasting
- Washing
- Chamfering
- Calibrating
- Grinding and Polishing
- Customized Printing
- Coating and Surface Protection

- terrazzo and cast stone tiles
- paving stones in hermetic quality
- terrace slabs and flags
- single layer and double layer tiles in filter/hermetic press procedure combination
